

INFORMATION PROTECTION & PRIVACY CONSULTING

Chris Zoladz, CIPP, CIPP/G, CISSP, CISA, CPA, CGFM is the founder of Navigate LLC, a consulting company focused on providing comprehensive strategic and tactical information protection & privacy consulting services.

Prior to founding Navigate in April 2009, Chris was the Vice President, Information Protection & Privacy at Marriott International, Inc., a function he created in 1999. In this role Chris had responsibility for all global information protection & privacy activities including executive advocacy, policy, awareness programs, training, information mapping, risk assessment and remediation, and legal compliance, including PCI DSS. Chris and his team collaborated with management across all Marriott business units and departments to ensure that the Company's valuable information assets were identified, adequately protected and leveraged for economic gain in a privacy sensitive manner. Chris also served as Chair of the Information Security & Privacy Governance Committee and was a member of the eBusiness Council.

Chris joined Marriott after a thirteen year career at Ernst & Young where he last served as the Mid-Atlantic Area Office Director of IT Auditing and Security Services. In this role Chris led a practice group focused on delivering high quality information systems audit and security consulting services to numerous clients in a multitude of industries. Clients included Fortune 500 companies in the Washington, DC, Baltimore and Richmond marketplace. Chris also served on the Ernst & Young IT Assurance & Advisory Services Practice Management Committee.

Chris is a past-president, treasurer and a founding board member of the International Association of Privacy Professionals (IAPP) and recipient of 2006 IAPP Vanguard Award as the Chief Privacy Officer of the Year. He is also a past member of the U.S. Chamber of Commerce Telecommunications and eCommerce Committee.

He was named one of the top privacy advisors in 2010 by *ComputerWorld*. Chris is also a contributing author to the recently published book titled "Building a Privacy Program: A Practitioner's Guide."
